THIS IS A RELEASE OF LIABILITY AND WAIVER OF RIGHTS.

Please print and read this agreement and make sure you fully understand it before signing up to watch the workshop. Signing up to watch the workshop signals that you fully agree to this agreement.

SECTION I: STRUCTURE OF THE FINDERS COURSE PROTOCOL

The FINDERS COURSE PROTOCOL is a 15-18 week design based on academic research into Persistent Non-Symbolic Consciousness and Persistent Non-Symbolic Experience (collectively, PNSE). More information about PNSE can be obtained at nonsymbolic.org.

The purpose of the FINDERS COURSE PROTOCOL is to attempt to assist you with finding methods that may support you with experiencing PNSE. The course works with many aspects of a person, including (but not limited to): thoughts, feelings, memories, emotions, and sense of self. During the course, you may experience thoughts, feelings, or sensations that you have not previously explored thoroughly. You may not experience happiness during all portions of the course. For example, you may be asked to recall painful memories during one exercise and attempt to transform their emotional content into love.

In preparing to use the protocol, it's important to consider that you will be confronting negative patterns. The FINDERS COURSE ORGANIZATION recognizes that some people wish to avoid any experiences that involve negative emotions. Therefore, if after reading the following descriptions or any portion of this document, you have any concern about your ability to fully utilize the FINDERS COURSE PROTOCOL, it is recommended that you not use it.

Please note that if you have or have had suicidal intent, homicidal intent or a diagnosis of unstable mental health, this Protocol is not for you. Under no circumstances should you use the FINDERS COURSE PROTOCOL.

The FINDERS COURSE PROTOCOL and FREE WORKSHOP instruction to learn it involves:

- 1. Presentations and discussions.** Teachers and mentors will speak about various subjects that are relevant to your life, and to the transition to PNSE.
- 2. Meditation, contemplation, and related practices.** You will need to devote time to various meditative, contemplative, and psychological practices.
- 3. Positive psychology exercises and techniques.** You will need to devote time to practicing techniques from positive psychology and related disciplines.
- 4. Small group sessions.** It is recommended that you work in a small group of 5 or 6 people.

5. Personal interactions with teachers, mentors, and other course staff. At various times throughout the course you may have direct personal interaction with course teachers, mentors and staff. This may be one-on-one or as part of a group. One or more of these individuals may explain something to you, give you personal direction, or ask or answer questions. The course staff's perspective is that you are committed to your own growth. The staff's style is to be caring, supportive and responsive to each participant's needs. Staff are respectful of your free-choice and individuality while showing how to meet the challenges you face and encouraging you to do so. At times you may experience some anxiety and risk in exploring new approaches to old problems.

6. Measures and other research documents. It is recommended that you fill out recommended psychological measures at the beginning, middle, and end of the course.
